Re: Information Required on Cannabis Establishment Websites

As a reminder, pursuant to Section 21a-421j-33(g) of the Department's [Policies and Procedures](#), the following information shall be included on a cannabis package on an extended content label, a package insert, or using a static quick response (QR) code, and shall also be available ***in-store and on the Internet web site*** of the cannabis establishment that sells the cannabis:

- (1) The types of cannabis incorporated, as well as all processing techniques and solvents used to produce and manufacture the cannabis.
- (2) All inactive ingredients comprising one per cent or more of the cannabis.
- (3) The date of harvest for raw cannabis and the date of manufacture for cannabis products.
- (4) The complete cannabinoid and terpene profile, including all isomers, esters, ethers, salts and salts of isomers, esters and ethers, as well as all additives and excipients, and all quantities thereof in metric units and as a per centage of volume.
- (5) A statement that the cannabis has been tested for microbiological contaminants, mycotoxins, heavy metals and pesticide chemical residue, as well as the date and the satisfactory or failing result of such testing.
- (6) The cannabis establishment where the cannabis was, as applicable, (a) cultivated, propagated or harvested, and (b) manufactured, as defined in section 21a-420 of the Connecticut General Statutes. The cannabis establishments shall be identified by: (1) legal entity name as registered with the State of Connecticut, (2) business address, and (3) email and telephone contact information.
- (7) The following warning statements:
 - Warning: Frequent and prolonged use of cannabis can contribute to mental health problems over time, including anxiety, depression, stunted brain development and impaired memory. Warning: Consumption while pregnant or breastfeeding may be harmful.
 - Warning: Cannabis has intoxicating effects and may be habit forming and addictive.
 - Warning: Consuming more than the recommended amount may result in adverse effects requiring medical attention.
 - Warning: Cannabis that is vaped or smoked typically has an onset within 15 minutes, and cannabis that is consumed may have a delayed onset of up to 2+ hours.
- (8) Additional warning labels for certain cannabis products as may be required by the commissioner and posted to the department's Internet web site.

Please be sure that the information required above is available for all cannabis products sold at your establishment both in-store and on your website. We appreciate your attention to this matter.
