

New Branding Procedures for Generating a National Drug Code (NDC) number.

May 23, 2024

ADVANCED GROW LABS LLC MMPR.0000001

The Department has modified the way NDC numbers will be generated for branding submissions into e-licensing. Beginning May 28, 2024, any entity that is responsible for submitting brand registrations to e-licensing will be responsible for generating their own NDC number using the following procedures.

- The branding entity will be responsible for generating and maintaining NDC numbers.
- **No alpha characters allowed** except for the state designation.
- The 3-digit branding entity prefix is facility specific and must be obtained from the MMP.
- The last 7 digits are at the branding entity's discretion.
- NDC numbers cannot be recycled.

Your assigned 3-digit prefix is: **001**

Example:

NDC number: C0010123456

C

001

0123456

State designation.
This will not
change.

MMP issued
branding entity prefix.
Must be obtained from
MMP.

The last 7 digits will be branding entity assigned. The
branding entity will be responsible for generating and
maintaining this number.

For any questions, concerns, or comments please contact the MMP Program via email at dcp.mmp@ct.gov.
