Wholesalers for Liquor and Beer, Hemp Manufacturers, Micro-Cultivators, Cultivators, Producers, Food and Beverage Manufacturer and Product Manufacturers,

Beginning October 1, 2024, [Public Act 24-76](#) requires each THC-infused beverage container sold or offered for sale in Connecticut to have the following symbol prominently displayed, in a size no less than one-half inch by one-half inch, indicating that the beverage is not legal for individuals who are under 21 years of age:

In addition, no THC-infused beverage offered or sold in this state may contain synthetic cannabinoids or be packaged, labeled or advertised in a way that:

- Resembles cannabis offered for sale in this state;
- Mimics or resembles a commercially available food or beverage item that does not normally contain cannabis or THC;
- Implies that the product is cannabis; or,
- Appeals to individuals under 21 years of age.

Infused beverages must meet the packaging and labeling requirements in [section 22-61m\(x\)](#) of the general statutes, as amended by [Public Act 24-76](#), including but not limited to:

- A scannable barcode, Internet web site address or quick response (QR) code that is linked to the laboratory's certificate of analysis for the product;
- Expiration date;
- The following health and safety statements:
 - Children, or those who are pregnant or breastfeeding, should avoid using such product prior to consulting with a health care professional concerning such product's safety;
 - Products containing cannabinoids should be kept out of reach of children; and,
 - The U.S. Food and Drug Administration has not evaluated this product for safety or efficacy.
- For products intended to be inhaled, a warning statement disclosing that smoking or vaporizing is hazardous to human health.
