RE: Next Steps: Keeping Inventory of THC-Infused Beverages

A [new law passed by the legislature](#) requires each dispensary facility, hybrid retailer or retailer offering THC-infused beverages for retail sale to pay \$1 for each THC-infused beverage and legacy THC-infused beverage sold during the preceding six-month period.

Beginning July 1, 2024, you should maintain inventory and record the number of THC-infused beverages and legacy THC-infused beverages sold.

The first report and payment, due October 1, 2024, should include all THC-infused beverages and legacy THC-infused beverages sold to consumers between July 1, 2024 and September 30, 2024.

IMPORTANT: Beverages, including the legacy beverages, that were already reported and paid for in the May 14 inventory should not be included in the recorded beverage sales submitted on October 1, 2024 or April 1, 2024.

Payments will then be due every six months, on April 1 and October 1, of each year. The sale of legacy THC-infused beverages will be prohibited after October 1, 2024.

Licensees will be able to report the number of beverages sold and pay the fees by logging into their [eLicense](#) account and using the "License Maintenance" option. If you have multiple locations, you must report beverage sales and payments separately for each location.
