RE: Non-cosmetic modification to facility

Please be advised that “non-cosmetic modifications” to your facility to accommodate a display of cannabis products will require a “non-cosmetic modification to facility” application. “Non-cosmetic modifications” may include, but are not limited to:

- Changes to the quantity, location or coverage of security cameras
- Any other modifications that may impact security camera coverage
- Installation of new display cases, equipment or hardware
- Changes to the quantity, location or security features of existing display cases
- Electrical work, including changes to outlets and lighting
- Physical alterations to approved secure storage areas
- Changes to the structural layout of the cannabis establishment.

In addition to physical modifications to the facility, Standard Operating Procedures related to the handling, storage, and disposal of “display cannabis” will also be required.

There is no fee associated with “non-cosmetic modification to facility” applications. When applying for a “non-cosmetic modification to facility”, an inspection will be generated, and an agent will be assigned. Please communicate with your assigned agent regarding the evaluation of your display for compliance.

Thank you for this feedback.
