RE: Increase in Per Transaction Limit for Adult-Use Cannabis Sales

Based on a review of the existing inventory of cannabis and cannabis products available statewide, the Department of Consumer Protection is increasing the per-transaction limit for adult-use sales of cannabis to one ounce per transaction effective July 30, 2025. You may not sell more than one ounce per day, per customer, regardless of the number of transactions a consumer makes.

That means adult-use consumers may purchase up to one ounce of cannabis flower, or its cannabis product equivalent, per day, in a single transaction. Consumers may make more than one purchase per day, as long as the daily total does not exceed one ounce of cannabis flower or its cannabis product equivalent.
