Trials

The figures shown below represent cases that reach a verdict across the state. For purposes of this data analysis, it is important to note that some cases are submitted to the jury but do not result in a unanimous verdict. Such cases, despite the workload involved, do not get counted in the trial data submitted by the Judicial Branch to the Division. Some cases move through the trial process only to resolve by plea agreement prior to jury deliberations. When cases resolve via plea agreement in this way they are not counted as a trial even though the prosecutor has picked a jury and presented evidence.

Court operations, particularly trials, were limited in 2021 and 2022 by the social distancing guidelines enacted in response to the COVID -19 pandemic. These precautions delayed trial preparations and therefore trial hearings well beyond the court closures which initially were lifted in the summer of 2020, but were reinstated periodically over the next year.
