Assistant Attorney General Henry Salton appeared before the Commission of Pharmacy to discuss the following Medco issues:

1. Medco Lockout of United Steelworkers Members in Las Vegas, Nevada
    - The Commission of Pharmacy must remain completely neutral when it comes to labor disputes unless public health and welfare is in danger.
    - Evaluation of whether the public health and welfare is endangered must be made without regard to the merits of any labor dispute. The Commission should only act where there is concrete evidence of risk to the public not merely because of the existence of a labor dispute.
2. Medco's Central Fill Request
    - The model presented by Medco requires Medco to be registered as a non-resident pharmacy in Connecticut.
    - The Commission of Pharmacy has no legal basis to tell Medco that they cannot be exclusive.

- The Commission of Pharmacy has no legal basis to impose such a condition.
- The Commission of Pharmacy has no foundation for such an order.
- The Commission of Pharmacy may have a valid policy concern but the legislature has not given the Commission of Pharmacy this authority.
