

AT & Me Technology

Presented by Chelsea Bailey

My experience with AT & Me

- My experience was positive
- learned new tech and computer skills
- I gained more independence

What was your initial motivation for participating in the AT & Me program?

- The program interest me because I would be using technology to gain independence
- learn new skills
- Make tasks easier
- Help with efficiency

How do you continue to use the technology you received?

- Improve communication
- Tracking my health through fitbit on Iphone
- Schedule Rides & Appointments
- Increased Independence

What has the technology helped you accomplish?

- I was able to graduated from Project SEARCH in June 2024
- Used my iphone to improve my health by using the fitbit app on iphone.
- My laptop helped me with volunteering and attend church services
- Bus Buddies leadership
- Attend Advocacy meetings
