OCC FACT SHEET: ELECTRIC SUPPLIER MARKET, NOVEMBER 2024 THROUGH OCTOBER 2025

The following is an update to the Office of Consumer Counsel's (OCC's) Electric Supplier Market Fact Sheet, originally created in [2014](#). The numbers provided herein are based on data submitted as compliance filings in the Public Utilities Regulatory Authority's Docket Number 06-10-22.

- Retail suppliers serve 15.8% of Eversource Energy (Eversource) residential customers and 16.5% of United Illuminating (UI) residential customers, in October 2025.
- In the month of October 2025, **two out of ten** residential supplier customers paid less than the Standard Offer in Eversource territory, and **one out of ten** residential supplier customers paid less than the Standard Offer in UI territory.¹

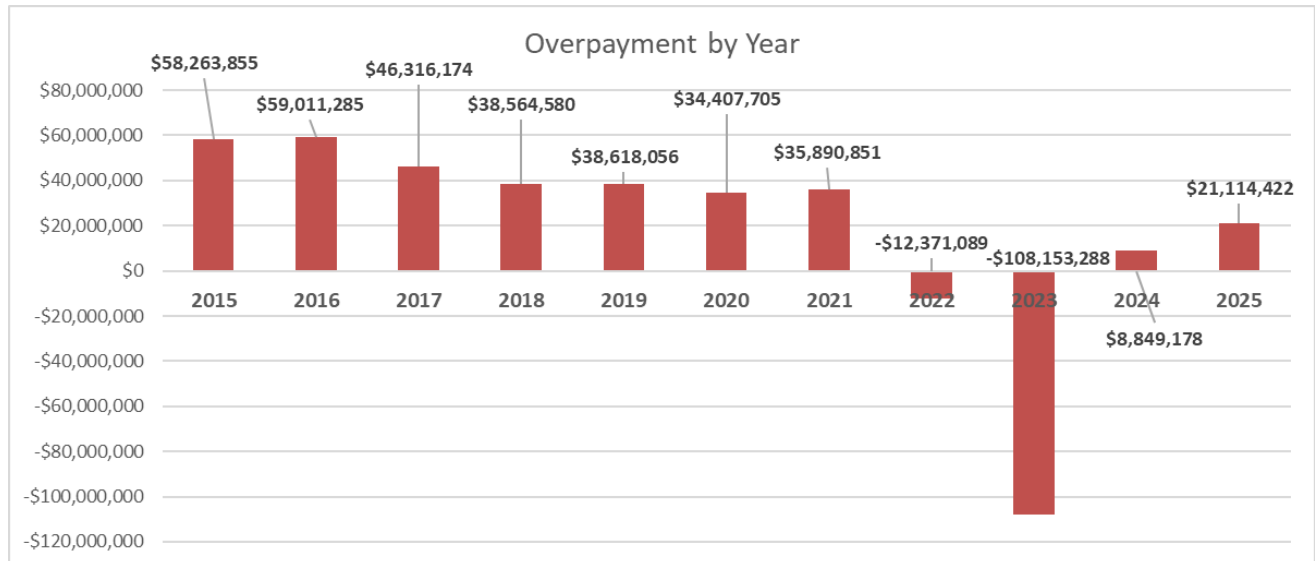

- In the month October 2025, residential Eversource customers who chose suppliers paid in aggregate **\$2,311,554 more** than the Standard Offer for their electric generation, and residential UI customers who chose suppliers paid in aggregate **\$211,767 more** than the Standard Offer.²

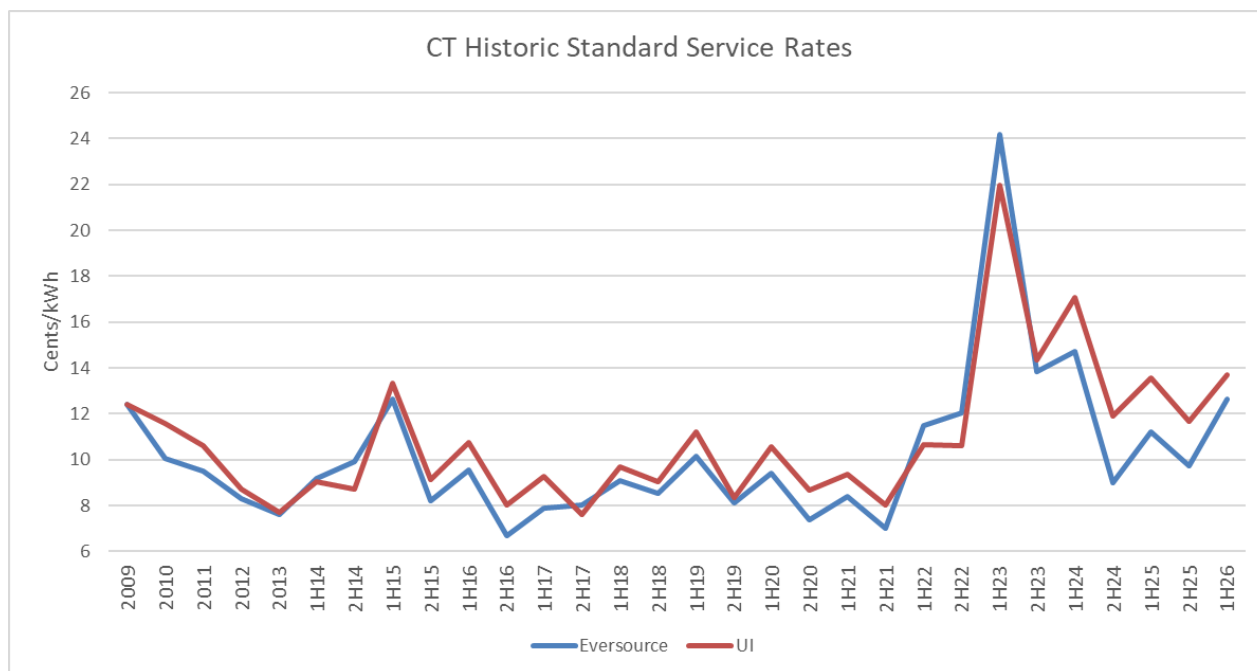

¹ This Fact Sheet only examines available data regarding pricing by electric suppliers. While some suppliers may offer products or services to customers such as airline miles or a product with additional renewable energy content, there is no data available to quantify the value of such offers. OCC recommends that customers look carefully at the fine print for offers for additional products or services that come with higher prices, to ensure they are getting sufficient value to justify the higher price tag.

² Data now includes actual kWh usage. Usage assumption no longer needed going forward in calculations.

- For the rolling year of November 2024 through October 2025, residential consumers who chose a retail supplier paid, in aggregate, **\$29,793,515 more** than the Standard Offer.
- Since January 2015, when OCC started tracking supplier data, customers with a supplier have overpaid a total of **\$220,511,731** more than standard service.

- For Eversource the Standard Offer for July 1, 2024 through December 31, 2024 was 8.995 cents/kWh. For UI the Standard Offer for July 1, 2024 through December 31, 2024 was 11.9101 cents/kWh.
- For Eversource the January 1, 2025 through June 30, 2025 Standard Offer is 11.19 cents/kWh. For UI the January 1, 2025 through June 30, 2025 Standard Offer is 13.57 cents/kWh.
- Recently utility standard offer rates for July 1, 2025 through December 31, 2025 were announced. The Eversource standard offer is 9.748 cents/kWh and the UI standard offer is 11.68 cents/kWh.
- For Eversource the January 1, 2026 through June 30, 2026 Standard Offer is **12.64 cents/kWh.** For UI the January 1, 2026 through June 30, 2026 Standard Offer is **13.69 cents/kWh.**
